"WE ARE SHALOM!" Is an artwork come true in co-creation, through my hands, with the hearts and minds of many people in the world who virtually have participated in this project.

We have chosen to commemorate this special date, 21/12/2012, through a work of art that would express, in common purpose, the profound message of the affirmation "We Are Shalom!" Shalom understood in its meaning most complete which includes Peace, Love, Harmony, Wholeness, Health, Prosperity, Happiness, Fulness, Perfection.

I thank all those who have shared this experience with me and that through their awareness have helped to increase the Light on our beloved Planet Earth and all human Hearts.
